Incomes of Alabama's Richest Households Dwarf Those of Its Poorest

After decades of widening inequality, Alabama's richest households have dramatically bigger incomes than its poorest households.

The richest 5 percent of households have average incomes 12.8 times as large as the bottom 20 percent of households and 4.5 times as large as the middle 20 percent of households.

Income is post-federal tax and includes the value of the EITC and the value of food stamps and housing subsidies. Income is adjusted for inflation (to 2009 dollars) and for household size. Changes shown are significant at the 90% level. For more detail, see *Pulling Apart: A State-by-State Analysis of Income Trends*, November 2012.
