

Enriching Children, Enriching the Nation

Oklahoma Summary

In his new study, economist Robert G. Lynch examines the costs and benefits of high quality pre-kindergarten programs and their positive impact over time on federal and state budgets, crime costs, and the earnings of pre-K participating children and adults. In this fact sheet, universal refers to a voluntary, high-quality pre-K program serving all 3- and 4-year-old children; targeted refers to a similar program serving 3- and 4-year-olds from families in the lowest quarter of the income distribution.

Universal program costs & benefits in Oklahoma

<ul style="list-style-type: none"> ▪ When the program would start paying for itself 9 years ▪ Annual cost of fully phased-in program in 2008 \$328 million <ul style="list-style-type: none"> ▪ Total benefits in 2050 \$7.6 billion ▪ Costs in 2050 \$893 million ▪ Ratio of total benefits to costs in 2050 8.5 to 1 ▪ When the program would begin to pay for itself in <i>budget benefits alone</i> 21 years <ul style="list-style-type: none"> ▪ Budget benefits in 2050 \$1.7 billion ▪ Ratio of <i>budget benefits alone</i> to costs in 2050 1.87 to 1 ▪ Total increased compensation (wages & benefits) in 2050 \$4.3 billion <ul style="list-style-type: none"> ▪ Savings to individuals from crime reduction in 2050 \$1.6 billion
